## **WELCOMING STATEMENT BY COUNCIL**

Mr. Crespo thanked everyone for their attendance. He restated that the purpose of this meeting was to discuss both Council and Resident's concerns regarding the current City Revaluation being conducted by Appraisal Systems, Inc.

Municipal Clerk Donna Snyder apologized for the lack of microphones, stating that they had been requested, but the School had advised today that the Head Custodian was out and that he had the key to the microphone room. It was hoped that if everyone was

## **PUBLIC DISCUSSION ON CONCERNS REGARDING SAID REVALUATION**

Mr. Crespo said that the last reval was done in 1992. In 2007 the County had ordered a reassessment, but a postponement was allowed due to the poor market conditions. He stated that, if need be, Council would meet with the County Board of Taxation to review the situation. Mr. Crespo also mentioned that both Appraisal Systems, Inc. and Beverly City Tax Assessor Joe Robinson were advised by the County Board of Taxation not to attend the Special Meeting. He then opened the floor to the Public.

More than 100 residents were in attendance, all repeating the following concerns:

Residents were never given a clear explanation of how the Formulas utilized were actually calculated. but that they seemed to be inflated.

Many properties were being assessed on Property features that were not theirs.

When Residents met with representatives from Appraisal Systems, Inc. for "Informal Hearings", numerous times there was no Property Card for them to view.

Complaints about the "Informal Hearings" also revolved around the fact that many were told that the rep they were speaking with had no information, and that they were there simply to take information and concerns down from the Property Owner. The majority felt that this would be leaning more towards a question/answer/clarification session.

Some stated that they were spoken down to by the ASI reps because they (the Residents) couldn't grasp the concept that was being repeated to them over and over again the same way.

Complaints were many relative to those Property Owners who lived at or in close proximity to the Light-Rail and property that was declared a Hazardous Waste Site by USEPA.

Additionally, some Residents were assessed for pools, decks, and gazebos that were not even on their properties.

The majority, again, wanted to know the criteria for evaluations, for Land, for Frontage, for "Neighborhoods".

As stated by Mr. Crespo, ASI had stated that they would extend the time to meet to anyone who requests it. Approximately 51 individuals signed lists for additional "Informal Hearings", indicating on these lists just what the concern was that they wanted addressed.

There being no further new discussions, Motion to Adjourn at approximately 8:30PM was made by Robinson; Second by Kelly. All in Favor. Motion Carried.

Respectfully submitted,
